

✓ Done: View

To do: Make a submission

To do: Receive a grade

Now that you've completed the Superhero App, let us see what you've done.

Create a repository in your IT varsity GitHub organization called: **Module-1-Assessment-5**

Need a refresher on [how to correctly submit assessments](#)?

Upload your project to the new repository, activate Pages in your repository, then submit the links below using the following format:

Repository: [LINK]

Pages: [LINK]

Good luck!

Add submission

Submission status

Attempt number	This is attempt 1.
Submission status	No submissions have been made yet
Grading status	Not graded

Grading criteria	<table><tr><td>Specification</td><td>Goes over and above all the required specifications stated in the directions and instructions <i>4 points</i></td><td>Includes all of the required specifications as stated in the directions/instructions <i>3 points</i></td><td>Missing one or more of the required specifications as stated in the directions/instructions <i>2 points</i></td><td>Severely requires specifications are missing from the project <i>1 point</i></td></tr><tr><td>Code Execution</td><td>The program works efficiently without any bugs or issues. <i>4 points</i></td><td>The program works, but there are one or two bugs or issues. <i>3 points</i></td><td>The program has many bugs. <i>2 points</i></td><td>The program does not work and is producing incorrect results <i>1 points</i></td></tr><tr><td>Readability</td><td>The code is exceptionally well organized and very easy to follow. <i>4 points</i></td><td>The code is fairly easy to read. <i>3 points</i></td><td>The code is readable only by someone who knows what it is supposed to be doing. <i>2 points</i></td><td>The code is poorly organized and very difficult to read. <i>1 points</i></td></tr><tr><td>Documentation</td><td>The documentation is well written and clearly explains what the code is accomplishing and how. <i>4 points</i></td><td>The documentation is somewhat useful in understanding the code. <i>3 points</i></td><td>There is some documentation, but not enough to understand the system. <i>2 points</i></td><td>There is no documentation <i>0 points</i></td></tr><tr><td>Neatness and Attractiveness</td><td>Exceptionally attractive and particularly neat in design and layout <i>4 points</i></td><td>Attractive and neat in design and layout <i>3 points</i></td><td>Acceptably attractive but may be messy at times and/or show lack of organization <i>2 points</i></td><td>Distracting, messy or poorly designed. Does not show pride in work <i>1 points</i></td></tr><tr><td>Creativity</td><td>Exceptional and unique design and brilliant use of colour and images. It is clear that additional research was done. <i>4 points</i></td><td>Thoughtfully and uniquely presented using the concepts covered, but nothing extra. <i>3 points</i></td><td>Project is only slightly different to the original that was covered in the lessons. <i>2 points</i></td><td>Project falls short of what was covered in lessons. Shows little creativity or originality effort. <i>1 points</i></td></tr></table>	Specification	Goes over and above all the required specifications stated in the directions and instructions <i>4 points</i>	Includes all of the required specifications as stated in the directions/instructions <i>3 points</i>	Missing one or more of the required specifications as stated in the directions/instructions <i>2 points</i>	Severely requires specifications are missing from the project <i>1 point</i>	Code Execution	The program works efficiently without any bugs or issues. <i>4 points</i>	The program works, but there are one or two bugs or issues. <i>3 points</i>	The program has many bugs. <i>2 points</i>	The program does not work and is producing incorrect results <i>1 points</i>	Readability	The code is exceptionally well organized and very easy to follow. <i>4 points</i>	The code is fairly easy to read. <i>3 points</i>	The code is readable only by someone who knows what it is supposed to be doing. <i>2 points</i>	The code is poorly organized and very difficult to read. <i>1 points</i>	Documentation	The documentation is well written and clearly explains what the code is accomplishing and how. <i>4 points</i>	The documentation is somewhat useful in understanding the code. <i>3 points</i>	There is some documentation, but not enough to understand the system. <i>2 points</i>	There is no documentation <i>0 points</i>	Neatness and Attractiveness	Exceptionally attractive and particularly neat in design and layout <i>4 points</i>	Attractive and neat in design and layout <i>3 points</i>	Acceptably attractive but may be messy at times and/or show lack of organization <i>2 points</i>	Distracting, messy or poorly designed. Does not show pride in work <i>1 points</i>	Creativity	Exceptional and unique design and brilliant use of colour and images. It is clear that additional research was done. <i>4 points</i>	Thoughtfully and uniquely presented using the concepts covered, but nothing extra. <i>3 points</i>	Project is only slightly different to the original that was covered in the lessons. <i>2 points</i>	Project falls short of what was covered in lessons. Shows little creativity or originality effort. <i>1 points</i>
Specification	Goes over and above all the required specifications stated in the directions and instructions <i>4 points</i>	Includes all of the required specifications as stated in the directions/instructions <i>3 points</i>	Missing one or more of the required specifications as stated in the directions/instructions <i>2 points</i>	Severely requires specifications are missing from the project <i>1 point</i>																											
Code Execution	The program works efficiently without any bugs or issues. <i>4 points</i>	The program works, but there are one or two bugs or issues. <i>3 points</i>	The program has many bugs. <i>2 points</i>	The program does not work and is producing incorrect results <i>1 points</i>																											
Readability	The code is exceptionally well organized and very easy to follow. <i>4 points</i>	The code is fairly easy to read. <i>3 points</i>	The code is readable only by someone who knows what it is supposed to be doing. <i>2 points</i>	The code is poorly organized and very difficult to read. <i>1 points</i>																											
Documentation	The documentation is well written and clearly explains what the code is accomplishing and how. <i>4 points</i>	The documentation is somewhat useful in understanding the code. <i>3 points</i>	There is some documentation, but not enough to understand the system. <i>2 points</i>	There is no documentation <i>0 points</i>																											
Neatness and Attractiveness	Exceptionally attractive and particularly neat in design and layout <i>4 points</i>	Attractive and neat in design and layout <i>3 points</i>	Acceptably attractive but may be messy at times and/or show lack of organization <i>2 points</i>	Distracting, messy or poorly designed. Does not show pride in work <i>1 points</i>																											
Creativity	Exceptional and unique design and brilliant use of colour and images. It is clear that additional research was done. <i>4 points</i>	Thoughtfully and uniquely presented using the concepts covered, but nothing extra. <i>3 points</i>	Project is only slightly different to the original that was covered in the lessons. <i>2 points</i>	Project falls short of what was covered in lessons. Shows little creativity or originality effort. <i>1 points</i>
